ABOUT

I'm a fourth-year undergraduate working towards a Bachelors in Informatics with a focus on Human-Computer Interaction. My goal is to secure a position where I can obtain real-world experience in technological fields at a strong, community-oriented work place where I can make a positive difference and build a successful future.

SKILLS

UI/UX Design	Team Communication
Full Stack Development	Print Design
User Research	Project Management
Qualitative Data Analysis	Prioritizing Tasks
Statistical Programming	Database Systems

TOOLS OF THE TRADE

AWS	Axure	Sketch
Visual Studio	RStudio	Adobe Creative Suite

EMPLOYMENT

UW SCHOOL OF PHARMACY
STUDENT/RESEARCH ASSISTANT
2015 – current

Tasked with a variety of work to help support the experiential education team at the School. Worked on several projects dealing with data mining, qualitative data analysis and visualizations. Familiarity of databases and data entry as well. Assumed the role of a videographer on several occasions.

EDUCATION

2014-2018	**UNIVERSITY OF WASHINGTON** SEATTLE, WA *Anticipated Bachelor of Science in Informatics	GPA: 3.65*

PRACTICAL EXPERIENCE

FOODIE FANATIC
CONTENT MANAGER
2017

Redesigned the web/mobile front of Foodie Fanatic with a focus on information architecture and the user. Improved the structure and flow of the website through a series of deliverables, such as: project plans, information personas, site maps, wireframes and taxonomies.

CARNIVAL CRUISE
UX AND UI DESIGNER
2017

Created a high-fidelity prototype of a Carnival Cruise app that redesigns and enhances a passenger's experience on their cruise. Went through an iterative design thinking process with methods, such as: white-boarding, user interviews, paper & clickable prototypes, and usability tests.

PUGGLE
WEB DESIGNER & DEVELOPER
2017

Developed a search infrastructure with an end-to-end experience that consisted of a structured data engine, query suggestion engine, web crawler function, and a dashboard for monitoring. Puggle allows for users to search for CNN articles in a Google-like manner.

NBA PLAYER STATISTIC
WEB DEVELOPER
2017

Developed a website that allows users to query for any NBA player from the year 2015-16 and displays their statistics in an organized format for the user.

SLEEP STUDY
DATA VISUALIZATION ANALYST & CLIENT-SIDE DEVELOPER
2016

Created a website showcasing data analysis in the form of data visualizations about sleep habits in America through client-side web development and statistical computing.
